### **DETAILED ACTION**

1. This application is in condition for allowance except for the following formal matters.

#### ***Drawings***

2. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

#### ***Claim Objections***

3. Claim 6 is objected to because of the following informality: the phrase "a base" should be "the base" in line 3. Appropriate correction is required.

#### ***Allowable Subject Matter***

4. Claims 1-5 and 7-16 are allowed.

5. Claim 6 would be allowable if rewritten to overcome the objection set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter. The prior art fails to disclose a reflector for a motor vehicle with at least one of the supports bearing on a base of the reflector, the base being distinct from the external surface of the reflector element.

### ***Conclusion***

7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sato (U.S. Patent 5,158,350) discloses a projection-type vehicular headlamp.

Sato (U.S. Patent 5,199,779) discloses another projection-type vehicular headlamp.

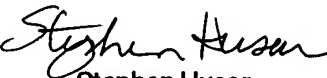

Kawamura (U.S. Patent 5,353,204) discloses a vehicular headlamp assembly having an auxiliary lamp.
